Hi Dave,

Thanks for your inquiry. We appreciate the opportunity to respond.

Vigilant Solutions complies with – and promotes customer compliance with – all applicable laws and regulations. We believe we are the only vendor that currently requires our customers to have an LPR policy in place, prior to program activation. Our commitment to compliance is reinforced through the Vigilant Solutions Law Enforcement Academy (VSLEA) program's LPR Technology and Best Practices in-person course, during which approximately 25 percent of the eight-hour course is dedicated to case law, local state laws, policy, deployment best practices and proper hit verification. We make 47 different model LPR policies available to VSLEA attendees, including the model ACLU policy, and direct attendees to the EFF website, where more than 150 policies reside. This is the only LPR training class in the state of California approved by the California Commission on Peace Officers Standards and Training (POST) and meets POST mandates.

Best,

Mary Alice
